BOOK DISTRIBUTION AWARENESS

18 September, 2023

19 September, 2023

20 September, 2023

1. A three day book distribution was carried out by our NSS volunteers and different educational elements were distributed among less privileged children to promote educational growth

However, books are inaccessible to a large number people because of their purchasing power which is sometimes perhaps not even sufficient to pay for their basic needs like food and shelter. Underprivileged people are denied their basic rights and are thus victims of the vicious circle of poverty. This vicious circle can be broken by educating these people which can be done if books are made accessible to these people

As books have a wonderful way of helping slum children development, within the world of books you can find imagination and creativity. In this bustling digital world it is more important than even to create moment to slow down and enjoy and book is a great way to do that.

We distribute some activity and colour book for make learning the alphabet fun with this colourful work book, recognize letter and letter sound relationship and important emergent children.

"A simple message from children sharing how they are excited and grateful about getting some books to read make us feel that we are creating a small difference".

Cracker Awareness Rally

10 November 2023

On 10th November NSS organized an inviting Cracker Awareness Rally on the college campus ahead of the festival to foster environmental consciousness and a safer Diwali celebration. The initiative sought to educate and inspire students and staff to make sound moral choices during the festive period and help mitigate the adverse environmental impact of Diwali celebrations.

The event started with an inaugural ceremony, where faculty members and students gathered to support the cause. Followed by which a colourful and vibrant march began, students carried placards and banners conveying messages about the environmental consequences of using firecrackers. The rally moved through different sections of the campus, attracting the attention of students, faculty, and staff. Creative slogans supporting a green and safe Diwali vibrated through the entire campus.

The Cracker Awareness Rally proved to be a highly successful initiative in promoting

environmental responsibility among the students. The event not only educated people about the harmful effects of firecrackers but also inspired them to adopt more eco-friendly practices like reusable diyas, green crackers, etc during festive celebrations. By fostering awareness and a sense of responsibility, we aimed to contribute to a cleaner and greener Diwali celebration for the entire community.

IIMT X SAMMAN FOUNDATION

Educating the child group of semi-skilled and unskilled workers is an urgent requirement. Education is an important component of the development of human resources and is necessary for the country's economic success.

All the key indicators of socioeconomic development include the economy's growth rate, fertility rate, fatality rate, infant mortality, and literacy rate. Everything is interrelated.

Only the literacy rate has historically been the major predictor of the other indicators' increase or decline. Recognizing this reality has raised awareness about the need to focus on literacy and primary education, not just for social fairness but also to promote economic growth, societal well-being, and societal cohesion.
